What about, “Communism is dead now.” Really?   What about the millions under its control in China and elsewhere? Or  “There is no communism in America.”
This is the official web page for the
[Communist Party USA](http://www.compartyusa.org).

The 10 PLANKS stated in the Communist Manifesto, their blueprint for the takeover of a country:

1. Abolition of private property; We have Agenda 21 (now 2030), A UN project to end private property. [Click Read More below for rest of the column]

2. A heavy graduated income tax: We have a graduated income tax and the promoted “fair share” mentality.

3. Abolition of all rights of inheritance: We have an inheritance tax.

4. Confiscation of the property of all emigrants and rebels: We have incidents such as Martha Boneta who has been harassed continuously by the government for wanting to farm organic food, for selling homemade products and for hosting a birthday party for 8 ten-year-old girls.

5. Centralization of credit in the hands of the state, by means of a national bank: We have the Federal Reserve which is a privately-owned system allowed by the government.

6. Centralization of the means of communications and transportation in the hands of the State: We have the unconstitutional FCC, Federal Communication Commission, and the Department of Transportation
7. Factories and all means of production owned by the state: We have the unconstitutional Department of Agriculture

8. Equal liability of all to labor. Establishment of industrial armies, especially for agriculture. We have unconstitutional minimum wage laws and Department of Agriculture

9. Abolition of the distinction between town and country, by a more equitable distribution of population over the country. This is Agenda 21 – now 2030 – pure and simple.

10. Free education for all children in public schools: We have government schools called public education and Common Core.

How does communism compare to socialism? They are one and the same. Socialism is the foundation of communism. A dictionary definition of socialism is this: A political theory advocating state ownership of industry – an economic system based on state ownership of capital.

What about communism and atheism. We can be tolerant of various belief systems even atheism. But not the communists. They will not tolerate any beliefs except atheist communism. Sure, they allow a few churches to exist for propaganda purposes but the churches preach their false line.

If communism is so evil, why hasn’t there been more resistance? There has been. In order for the communists to take over a country and consolidate their power they have starved, tortured and worked to death millions of people.

Why aren’t there whistle blowers? There have been many – but our controlled media have not given their voice any publication.

If I don’t fight back I will be spared is a common reaction. But it is a false premise.
When communists have taken over a country they take a dissenter and hang them on the village square for all to see. And, next to them they hang a Joe Blow who did nothing to oppose them, who went along to get along.

This strikes terror in the hearts of all. If they will kill him, no one is immune. This assures the communists in consolidating their power.

The time is now. We must bring sufficient understanding to enough of the electorate to turn things around while there is still time to do so.
